AUTHORITY: Sec. 7, 32 Stat. 389, sec. 14, 53 Stat. 1197; 43 U.S.C. 421, 389.

SOURCE: 31 FR 9108, July 2, 1966, unless otherwise noted.

§ 8.0 Acquisition of lands for reservoir projects.

In so far as permitted by law, it is the policy of the Departments of the Interior and of the Army to acquire, as a part of reservoir project construction, adequate interest in lands necessary for the realization of optimum values for all purposes including additional land areas to assure full realization of optimum present and future outdoor recreational and fish and wildlife potentials of each reservoir.

§ 8.1 Lands for reservoir construction and operation.

The fee title will be acquired to the following:

(a) Lands necessary for permanent structures.

(b) Lands below the maximum flowage line of the reservoir including lands below a selected freeboard where necessary to safeguard against the effects of saturation, wave action, and bank erosion and the permit induced surcharge operation.

(c) Lands needed to provide for public access to the maximum flowage line as described in paragraph (b) of this section, or for operation and maintenance of the project.

§ 8.2 Additional lands for correlative purposes.

The fee title will be acquired for the following:

(a) Such lands as are needed to meet present and future requirements for fish and wildlife as determined pursuant to the Fish and Wildlife Coordination Act.

(b) Such lands as are needed to meet present and future public requirements for outdoor recreation, as may be authorized by Congress.

§ 8.3 Easements.

Easements in lieu of fee title may be taken only for lands that meet all of the following conditions:

(a) Lands lying above the storage pool.

(b) Lands in remote portions of the project area.

(c) Lands determined to be of no substantial value for protection or enhancement of fish and wildlife resources, or for public outdoor recreation.

(d) It is to the financial advantage of the Government to take easements in lieu of fee title.

§ 8.4 Blocking out.

Blocking out will be accomplished in accordance with sound real estate practices, for example, on minor sectional subdivision lines; and normally land will not be acquired to avoid severance damage if the owner will waive such damage.

§ 8.5 Mineral rights.

Mineral, oil and gas rights will not be acquired except where the development thereof would interfere with project purposes, but mineral rights not acquired will be subordinated to the Government's right to regulate their development in a manner that will not interfere with the primary purposes of the project, including public access.

§ 8.6 Buildings.

Buildings for human occupancy as well as other structures which would interfere with the operation of the project for any project purpose will be prohibited on reservoir project lands.
